**This autumn, Arte expands its Décors & Panoramiques collection with 6 new décors and 4 panoramas.**

### **Yasuni**

Yasuni National Park in Ecuador is one of the most biodiverse places on earth and truly captures the imagination. This special place lent its name and inspiration to the Yasuni panorama. The tropical design is composed of short, sharp lines, creating a strong graphic effect that is brought to life by rich, warm colours and a soft velvet finish.

*Yasuni is available in 2 colourways.*

### **Balata Garden**

Inspired by the extraordinary botanical diversity of the Balata Garden on the island of Martinique, this tropical décor captures the atmosphere of lush, exotic foliage. The fluidity of the design combines with the soft textile finish to create a captivating and powerful design statement.

### **Sierra Nevada**

This décor draws inspiration from the majestic Sierra Nevada. Distinctly North American motifs of mountain peaks, eagles and wildflowers are artfully arranged in a stylised pattern. The design is brought to life with a luxurious jacquard bouclé weave.

### **Sundara**

The richly detailed panorama Sundara draws inspiration from the Indian region of Rajasthan, celebrated for its stunning landscapes and colourful palaces. Aptly named Sundara, a Sanskrit word meaning beautiful, noble, and beauty. The luxurious fil-à-fil textile finish and warm colours enhance the lush appearance of this enchanting design.

*Sundara is available in 2 colourways.*

### **Forêt des Muses**

French and English gardens, with their abundance of botanical diversity, inspired the exuberant 'Forêt des Muses' décor. The painterly design has been brought to life on a linen-look textile, while the underlying metallic foil adds a radiant shimmer.

*Forêt des Muses is available in 3 colourways.*

### **Filigrana**

A stunning embroidered wallcovering in true Art Deco style. The name 'Filigrana' references the extremely delicate, fine filigree wire work patterns created by artisanal goldsmiths. Embroidered onto a warm blend of cotton and linen, this design brings both graphic drama and tactile intimacy to an interior.

*Filigrana is available in 3 colourways.*

### **Montana**

This exceptional Art Deco wallcovering combines several weaving techniques to form an exceptional geometric design. Montana is partly embroidered on a luxurious jacquard textile, whilst other elements are created using velvet appliqué to create drama and depth.
