Contract design with true character

The new collection SIGNATURE from JAB ANSTOETZ Contract

Bielefeld, Autumn 2017 – No matter whether your business is hospitality or gastronomy, services or the retail trade – if you want to flourish you have to distinguish yourself from your competitors. A carefully composed interior will send the right optical signals and express the uniqueness of the company with every detail.

Unique like a signature is the new CS and FR contract collection **SIGNATURE** from JAB ANSTOETZ Contract. Twelve elegant articles in 102 colours make a clear statement for individuality. The textiles present themselves in an expressive fashion without being to the fore. They show character, but they leave enough room for personal and individual design – the unique signature of the architect.

② MONTREAL 9-7783-020

③ BUDAPEST 1-4180-020

④ HAVANA 9-7784-020

⑤ CURVE 4-4093-093

The high-class materials, which have been developed especially for the versatile demands of international contract business, can easily be integrated into many different room concepts and highlight specific interior features. Eight multifaceted colour worlds with illustrious names provide the matching palette for every room concept: "Faded Amethyst" features the many different nuances of rose quartz and amethyst, "Autumn Sage" reflects the wealth of colours of wild herbs, "Muddy Blue" stands for subtle blue shades, "Carbonized Silver" features soft silver graduations, "White Out", "Desert Sand" and "Café Royal" complete the collection with a broad spectrum of off-white and natural tones to a luxurious brown. The design language is deliberately clear and impressively modest. Graphic elements meet multi-coloured structures and charming three-dimensional looks.

In the segment of decoration fabrics the jacquard **BILBAO** accentuated with luminous yarns convinces with an irregular stripe design in an ikat look. The room-high **HAVANA** captivates with a diamond design. Using a special weave technique and a subtle glossy warp yarn, the article gives the perfect illusion of a three-dimensional fabric. Lines which appear to have been drawn spontaneously spread across the silky warp satin **COPENHAGEN**. The use of a coarse effect yarn lends the article an embroidered look. The semi-plain **CAPETOWN** is distinguished by an elegant polychromy. Using different weft yarns in combination with a smart weave technique an elegant wild silk look is created. The stylised chevron design of **MONTREAL** is shaped by a slightly shimmering satin, which stands in charming contrast to the matt ground. **BOSTON** displays a multicoloured cotton look that achieves an expressive iridescent effect thanks to the combination of multicoloured warp and weft yarns. A highlight is the transparent tape yarn in the weft that lends the article a stylish, casual impression. **ROME** is an airy voile that enchants with a fine chevron design with a silky shimmer. Two effect yarns of different colours and a special shrink yarn in the weft lend the transparent leno fabric **VIENNA** an exceptional stripe look. The 100 % opaque blackout **ATLANTA** with a silky gloss and a wonderfully supple feel completes the range of decoration fabrics.

The eye catcher among the upholstery fabrics in this extraordinary collection is **BUDAPEST**. The two-coloured squares of the high-class velvet are inspired by art deco and stand on a graphic ground in a three-dimensional fashion. The semi-plain **OSLO** radiates subtle elegance. Mélangé yarns and a special finish lend the article a silky shimmer. Last but not least is **LISBON**. Here the subtle glossy ground stands in a beautiful contrast to the chenille design resembling little pebble stones.

As a harmonious supplement to the characterful contract fabrics we have launched the wallcoverings collection **SIGNATURE WALLCOVERING** in a total of 35 colourways. The exclusive vinyl qualities with a textile backing are flame retardant and thus suitable for contract use. The look of the inconspicuous, elegant designs is still underscored by a slightly metallic effect. They coordinate perfectly with the designs of the textiles. While **CURVE** presents softly flowing waves, **SCRATCH** features crossing lines that form an irregular lattice design. **CHECK** displays diamond patterns in an exceptionally three-dimensional fashion. The most versatile articles **TEXTURE** with a linen-like look and **EPOCH** with a brushed structure complete the extraordinary wallcoverings collection.
